-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is impossible to determine what applicant is attempting to claim. For example, in claim 1, "an external surface portion of the body distant from this end is in electrical contact with an annular crown," how is the body end with the housing distant from the end in contact with the annular crown 31? They are the same end of the body; only one end of the body is even shown. "[E]xtending towards the aperture of the housing through at least a contact clip . . . ." What is extending through the contact clip? The annular crown, the external surface portion, or something else? However the limitation might be interpreted, it does not make any sense give the disclosure. "[A]chieving the electrical contact with the male contacting portion . . . ." What is achieving contact with the male contacting portion? The external surface, the annular crown, the contact clip, or something else? It is impossible to tell or even make a reasonable guess. The preceding are merely examples and the examiner has not attempted to list all of the ambiguities apparent in claim 1. Given that the examiner cannot make any sense of claim 1, much less how the dependent claims further limit claim 1, for purposes of analysis, claims 1-22 are analyzed as claiming male and female contact parts including a contact clip including tabs in the female part.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bilezikjian. Per claims 1-22, Bilezikjian discloses male 12 and female 10 contact parts including a contact clip 30 including tabs 34 in the female part. Claimed variations of the device as taught in Bilezikjian would have been obvious at the time of the invention.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ross Gushi whose telephone number is (571) 272-2005.
